From the President (Brad Wigton)

Greetings all:

Fall is here, get the flying in before it is too late.

I want to start off by giving my most sincere condolences to the family and friends of Rod Baumbach. He was a good man and member of this club, He passed Wednesday September 15th due to a heart attack. He was a long time member of this club and will be missed by myself and to all who knew him. We will set aside time for anyone who wants to share their stories of his life at the upcoming monthly meeting (VIA ZOOM),

October is the beginning of the nominations for the 2021 COL Eagles board. If you wish to renominate the current board or add your name into the list for voting in November please send an email to the club for this month's meeting. If you wish to nominate someone please reach out to them beforehand to ask if they will accept the nomination.

Last month's meeting was a quick meeting due to the darkness and the onset of the evening bugs. But it was good to see everyone who was able to make it.

I want to thank Larry for setting up the fall float fly and for the members who attended it this year. I also want to thank Bud for coming to my rescue with some foam safe CA so I could continue to fly after my slight misjudgment of the pier as I was landing. It was a quick wing repair and I flew many more flights. I had to finally call it a day after one of my motors started to come loose on my Twin Outtor. FYI to anyone who has one, the motors still run when upside down and in the water, no need to go wading out for it, it paddled its way in to the shore.

The AMA has dedicated the month of October as build month. Let's all get our winter projects started and remember to share the progress to the members.

Have a good and safe time on the last few good flying days for this season

As a quick reminder, in the **October Meeting** we will be asking for nominations for the **2021 board** to be voted on in November.

Brad Wigton

Good building and flying,-

Field Maintenance (Paul Urquhart / Greg Kamysz)

So another year is coming to an end and we have had lots of good flying weather.

Lots of grass cutting and some repair work done on club tables, and canopy.

A big thanks goes out to all of the guys that did the work. Maintaining the field and equipment is a big job each year; it cannot get done without the hard work of a few. As the flying days come to an end this year take a look around and take note of just how good of a flying field we do have and thank the guys that have made it what it is.

I hope to be able to get some flying done yet this year and next year too.

Good flying to all!

Paul Urquhart
